Paper 1

All written Questions :-

1. Bacteriology of Gas Gangrene [Clostridial Myositis]
2. Septic shock [Clinical Picture] + [PathoPhysiology] * تكرر
3. Management of Pulp space Infections
4. Enumerate histological Types of soft tissue sarcoma
5. 〃 Types of Flaps used for tissue reconstruction
6. 〃 〃 〃 Dermoid cysts * تكرر
7. 〃 Pathological Types of Parotid gland Tumors
8. Clinical Picture of Popliteal artery Aneurysm
9. 〃 〃 〃 Tension Pneumothorax * تكرر — ortho
10. Classification of Pelvic bone Fracture
11. Complications of supracondylar Fracture of humerus * تكرر
12. Clinical Picture of Acute heamatogenus osteomyelitis
13. Pathology of osteoclastoma [Invest & TT] *
14. Surgical Audit
15. Management of Cold abscess
16. Sternomastoid Tumor
17. Clinical Picture of Papillary thyroid Carcinoma
18. Enumerate classifications of Jaw swellings
19. 〃 Different Types of Lipoma
20. 〃 〃 〃 〃 Capillary hemangiomas
21. 〃 Pathological Types of Breast Cancer
22. Clinical Picture of Flail Chest
23. 〃 〃 & radiology of osteosarcoma * تكرر — ortho
24. Discuss Coll's Fracture * تكرر
25. Boride's bone abscess
26. Enumerate causes of hypercalcaemia
27. Describe Incidence, Causes, Pathology & TT of Basal C. C.
28. 〃 Pathlogy, C/P, Invest., TT of Extradural hematoma
29. Difference between Partial & Full thickness skin graft
30. Clinical Picture and Investigation of soft tissue sarcoma
31. Describe salivary Fistula

Paper 1

32) Indications of Inferior vena cava filter insertion
33) Discuss cellulitis of The face
34) Complications of shoulder dislocation ← ortho
〃 〃 Fracture Pelvis
〃 〃 〃 neck femur

35) Describe Airway Management in Polytrauma Patient
36) 〃 Diagnosis and TTT of Acute hemolytic reaction
37) 〃 Decontamination including cleaning, disinfection and sterilization
38) Describe in a table the variations of arterial blood gases in defferent types of acid base disturbances
39) Describe clinical Picture of Parotid Tumors
40) 〃 secondary & tertiary hyperparathyroidism
41) Enumerate causes of thyrotoxicosis
42) Describe in a table the differences between Papillary, Follicular, anaplastic and medullary thyroid carcinoma [incidence, cell of origin, Mic.P, spreed, Tumor Markers, TTT]
43) Describe Requirements of an Ideal amputation stump

⇒ Anatomy CQs :-

1) Anatomy of fascial spaces of the hand
2) 〃 〃 Triangles of The neck
3) 〃 〃 Submandipular Salivary gland
4) 〃 〃 Lower Limb Superficial venous system*
5) 〃 〃 Carpal Tunnel
6) 〃 〃 Rectus sheath* جه مرتين
7) 〃 〃 Right ureter
8) Blood supply of The stomach
9) Venous Anatomy of L.L

Paper 2

→ All Written Questions :-

1. Enumerate etiological Classifications of Portal Hypertension
2. ~ & illustrate Types of Perianal Fistulae
3. Clinical Picture & Types of rupture spleen * جه مرتين
4. Enumerate Different Types of Colorectal Polyps
5. C/P of Perforated duodenal P.U * جه مرتين
6. Pathology of acute mechanical Intestinal obstruction
7. Preoperative Management of acute Peritonitis
8. Discuss Perianal abscesses
9. Types & Complications of acute appendicitis
10. Pott's disease of the Spine [Discuss]
11. Preoperative bowel Preparations [Discuss]
12. Clinical Picture and Investigation of GERD
13. Indications of Bariatric Surgery
14. Management of Patient with bleeding esophageal varices
15. Investigation, assessment of severity and TTT of acute hemorrhagic Pancreatitis
16. Causes, C/P, Invest. of acute Pain in The Scrotum
17. Enumerate Causes and Discuss How to reach a Diagnosis in a Case of Solid Liver mass
18. Describe C/P and Invest. of acute Intestinal Ischemia [MVO]
19. ~ ATYPical Presentation of acute appendicitis
20. Illustrate with a drawing different Types of abdominal Inscisions
21. Indications of Splenectomy in heamatological disorders
22. Discuss Early detection of neonatal Intestinal obstructions
23. ~ Investigations Required for a Patient with bleeding Per rectum
24. ~ Management of a patient with urinary Retention
25. ~ Imaging of a Patient with Renal Trauma
26. Describe The immediate TTT of Corrosive esophageal Injury
27. ~ Gastroduodenal mucosal barrier
28. ~ Sites of Peptic ulcerations
29. ~ clinical Picture of Cancer stomach

Paper 2

30. Describe Child's classification
31. Advantages & contraindication of laparoscopic cholecystectomy
32. Compare the difference in clinical picture and investigation between intestinal obstruction & acute generalized septic peritonitis
33. How to differentiate clinically and by investigation between Right Renal colic & acute appendicitis
34. Describe in a table the difference between main causes of Ascites
35. Describe complications that are specific for splenectomy
36. 〃 Indications of surgery & surgical options in ulcerative colitis
37. 〃 Etiology, C/P, Invest. of familial polyposis coli
38. Compare complications of Gall stones with complications of urinary stones
39. Discuss C/P & Invest. of hepatocellular carcinoma
40. C/P & Invest. of Congenital Diaphragmatic hernia
41. Discuss occult bleeding per rectum
42. Enumerate Types of Inguinal hernias
43. 〃 Causes of neonatal intestinal obstruction
44. Demonstrate [with drawings & names only] different Types of cysts present in inguinoscrotal region
